A results-driven Full-Stack Developer with proven experience in architecting applications with Next.js, React, and SQL. Seeking to transition my full-stack expertise into a C# and .NET development role.

Skills

- **Programming Language**: C# | Python | JavaScript | TypeScript | Java | C | C++
- **Web Development**: Angular | React | NextJS | React Router | Shadcn/UI | TainwindCSS | Gluestack-ui
- **Backend**: .NET | FastAPI (Python) | Express (JS) | Strapi | Firebase
- **Database**: SQLServer | MySQL | SQLite | MongoDB | Firestore | Prisma | SQL Alchemy
- **Project Management & Version Control**: Git | GitHub | Agile | Scrum

Work Experience

Lead Full-Stack Developer | Skyline Zipline | Mobile and Web Development (BC, Canada)   Jan 2025 - Apr 2025

Technologies: NextJS, React, ReactNative, Gluestack-ui, TailwindCSS, Firebase, Firestore, MySQL, FastAPI, Python
- Architected a full-stack inspection application using Next.js, React Native, and Firebase
- Resolved Firestore query limitations by leading a migration to SQL, enhancing backend performance
- Acted as the primary point of contact for clients, leading meetings to define project scope and requirements
- Led a 3-person development team, delegating tasks and managing workloads to meet sprint goals

Lead Full-Stack Developer | BLOOM | Web Development (BC, Canada)   May 2025 - present

Technologies: NextJS, React, TypeScript (ES6+), TailwindCSS, Strapi, Shadcn/UI
- Led the architecture and development of an all-in-one study abroad platform for Japanese users
- Designed a flexible content model with Strapi to efficiently manage diverse information
- Acted as a key communicator with Japanese stakeholders to align project goals with user needs

Mobile Developer | HIRAGANA | Mobile Development (BC, Canada)   Jun 2025 - present

Technologies: React Native, TypeScript (ES6+), Gluestack-ui
- Designed and developed a gamified Japanese learning mobile app using React Native
- Orchestrated the end-to-end development of a Japanese learning app, from initial concept to launch
- Engineered a quest-based progression system with animated characters to boost user motivation
- Crafted an intuitive interface that provides clear, immediate feedback through interactive animations

Assistant Technical Sales Manager | Hitachi Chemical (South Korea)   Feb 2019 - Dec 2022

- Achieved top sales in the team for semiconductor items that previously have shown the lowest sales.
- Delivered internal and client presentations that supported teams and upheld company interests without profit loss
- Deepened relationships with clients creating new opportunities for new items sales

Technical Support | Korea Army (South Korea)   Jan 2015 - Dec 2016

- Installed devices including desktops, laptops, printers, and routers for teams
- Maintained and assigned dynamic IP for external Internet access and static IP for internal Internet uses

Server | Gyu Kaku (BC, Canada)   Jan 2014 - Aug 2014 & Aug 2023 - Present

- Maintained an average customer rating of 4.9+ and was frequently mentioned by name in positive reviews
- Collaborated with kitchen staff and managers efficiently to ensure timely and accurate delivery of orders

Education

Diploma in Computer Systems Technology   Sep 2023 - Jun 2025
British Columbia Institute of Technology (BCIT) | Canada | GPA: 87%

Bachelor's Degree in Computer Science   Mar 2021 - Dec 2022
Korea National Open University | S.Korea | GPA: 94%

Bachelor's Degree in International Studies   Mar 2010 - Dec 2018
Kwangwoon University | S.Korea | GPA: 93%
